Industrial Precinct

There is an increase in industrial development in designated locations across the Region. Industrial development in Innisfail is located within the Industry precinct.

Art Deco Precinct

The Innisfail central business precinct contains a range of art deco buildings and remains a highly attractive art deco precinct. The art deco character of the Innisfail central business precinct is maintained and protected from inappropriate development.

Future Urban Area

This is the preferred future urban growth corridor of Innisfail. It is unlikely that this land will be required within the next ten years and development in the Innisfail local plan area should be pursued.
