### Information regarding advertising device

Some advertising devices are prohibited under Part 3 of the Cassowary Coast Regional Council Local Law No. 10 (Advertising Devices) 2022 and no application can be made for a prohibited advertising device.

Some advertising devices are permitted without application under Part 4 of the Cassowary Coast Regional Council Local Law No. 10 (Advertising Devices) 2022 and no application is needed for that advertising device.

That leaves advertising devices that are to be assessed. The assessment may occur under either the Planning Scheme or this local law depending upon physical elements and the purpose of the advertising device.

Advertising devices can have several attributes and may fit under several of the definitions under the local law. Please refer to the definitions in the dictionary in *Cassowary Coast Regional Council Local Law No. 1* (Administration) 2022.

For example, an advertising device may be an **under awning advertising device** and may also be an **illuminated advertising device** and could be an **off-premises advertising device**.

To determine whether an application is to be made under the planning scheme or the local laws please identify whether the proposed advertising device can be defined as one or more of the definitions under the physical elements definitions in column 1. If column 2 identifies the advertising device as requiring assessment under the planning scheme an application must be made under the planning scheme. Column 3 identifies the definitions that identify the purpose of the advertising device. If column 4 identifies the advertising device as requiring assessment under the planning scheme an application must be made under the planning scheme. All other applications are made under *Cassowary Coast Regional Council Local Law No. 10 (Advertising Devices) 2022.*
