Help Shape a New Cassowary Coast Events Strategy

From sports, arts, culture, food, music festivals, and business events, Council is seeking community input on a range of issues that are relevant to supporting existing events and attracting new events in the future.

Cassowary Coast Regional Council Chief Executive Officer, Andrew Graffen said the healthy number of established events held across the region provides a good base from which to grow and attract events that will contribute to a vibrant and evolving calendar of events.

“The Strategy will support ongoing development of sustainable events including existing events that reflect the rich attributes of our destination and our lifestyle, attract visitors, and enhance our regional profile through wide exposure beyond our region,” Mr Graffen said.

Notice of Scheduled Works: Beach Nourishment Activities to Commence at South Mission Beach

Council will be undertaking Beach Nourishment works at South Mission Beach to replenish sand and rehabilitate erosion from Monday 26 February.

Works will consist of relocating sand sourced from Tully River to a 700m section of beach at Kennedy Esplanade, between Jackey Jackey Street and Owen Street. To ensure public safety, beach access will be limited around the works site when nourishment activities are taking place.

Notice of Works - Fitzgerald Esplanade, Innisfail (Callendar Park)

Council will be conducting geotechnical Investigations from Tuesday 5 to Wednesday 6 March 2024 along Fitzgerald Esplanade. These investigations will accurately define the existing subsurface material properties for soil assessment and management plans. This data will be used for the design and construction of the Callendar Park Drainage Upgrade Project.

Council wishes to advise works will be undertaken between 7am to 5pm. A temporary road closure will be in place on Tuesday 5 March with the road to re-open at the conclusion of bitumen reinstatement. Temporary disruptions to this area include potential noise pollution due to machinery, dust and traffic flow. We request the public observe and obey traffic controllers and signs advising the changes to normal traffic/pedestrian conditions and follow any directions.
