

Unsealed Road Report (Weekly)

Information on what's been happening in the last week

20 March 2026

	Long Term Dry Season Target	Current Measured Average	Current Predicted Average
Safe Driving Speed (km/h)	80	86	80
Roughness	4.6	4.3	4.8

Disclaimer: Safe Driving Speed is not a recommended driving speed. It is calculated utilising a World Bank correlation between roughness and speed. It assumes an average vehicle, driven by a driver of average ability, on a straight road in dry weather conditions.

Completed in the last 7 days 10.11 kilometres
